

Juneau (XL)

Optimyst® | 230V/50Hz | 250/400 Watt

Juneau

Juneau XL

The Juneau is an electric inset fireplace unit, ready to be installed into nearly any interior space or indoor object, including inactive gas or wood fireplaces. The three dimensional Optimyst® fire image comes from cold water vapour and light, which is startlingly realistic, can be seen from all sides, and is safe to touch. A practical detail: the water reservoir can be refilled from the front, without removing its glowing logset. In a few words: the Juneau is a perfect basis for great fireplace projects.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- Logset included

Viewing configurations

All-round view.

Flame Effect

Surprising by the floating flame and smoke effect and variable flame intensity.

All-season flames

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat.

Flame technology

Optimyst® flame technology, flame patterns by cold water vapour.

Multi-function Remote

Control all functions of the fireplace from the comfort of your chair.

Installation

Very suitable for installation.
