NEO 1000 FIREPLACE
WITH NEO 1000 AUTOMATIC BEV® BURNER

*Net Zero fireplace with **BEV** Technology®*

AUTOMATIC BEV® BURNER
The BEV Technology® guarantees burning that is free of smoke, odor, or ash. This technology creates a flame by burning ethanol vapors, ensuring that the fire has no direct contact with the liquid fuel.

AUTOMATIC REFILLING
The automatic pump communicates with the device, delivering the necessary amount of fuel. There is no risk of overfilling the tank or spilling the fuel.

DETACHABLE SIDE PANELS
Your Neo Fireplace comes with two detachable side panels. You decide what shape it will take - Single-Sided, Left Corner, Right Corner or Three-Sided.

REMOTE CONTROL
Easily control your fireplace with the handy remote. You're in charge of the flames. Go for one of 2 flame levels to adjust the ambience and coziness to your needs.

ZERO CELARANCE FIREBOX
The ultimate firebox with our zero clearance design allows you to seamlessly integrate the fireplace into combustible materials and mount your TV directly above the fireplace.

DECORATIVE LOGS
Neo gives you the freedom to choose between a cozy, traditional look with decorative logs or a sleek, modern aesthetic—just remove the log tray to transform the style in seconds.
